

7.2 Best – Practice 1

To Help Students who have financial difficulties

Goal :-

The aim or the practice is to provide the financial support to those who have problem in paying tuition, exam and other fees. This will help those students continue their studies without any problem.

The context :-

The college receives students from various backgrounds. There are several students who are meritorious but not capable of paying tuition or other fees due to their financial conditions. It is the interest of the college to see those students also complete their course without any problem.

The practice :-

The college has initiated a scholarship scheme to distribute fund to the needy students as full semester fees. Waives half semester tuition fees waiver based on economic status and performance in the academic activities. Apart from this college has Rs. 30,000/- as scholarship fund as on 31st march 2017 sponsored by governing body. The interest generated from this fund is also utilized for giving assistance to purchasing books and project report completion, study tour etc. Most of students are been beneficiary of these schemes.

Evidence of success :-

More number of students receives those scholarship and completed their degree without any problem feed back from those students clearly indicates the true success or those scholarship programs.

Problem encountered and resource required :-

The college does not face any problem as such to identify those students to receive the scholarship. Man power and huge amount of money are required at college level.

7.2 Best practice II:-

To enhance research potential of faculty members.

Goal :-

The aim to this particular practice is to provide necessary infrastructure human resources and motivation to nature the research competencies among any the faculty members.

The Counter :-

The college offer I us 2 PG degree programs in social work department it is the responsibility or faculty members to effective learning methodology in their students to understand various social work concepts. To accomplish this they need to be creative and innovative in their approach to teaching learning activities and should possess holistic idea about the subject what they teach, which requires some level of research competencies in the facility members.

The Practice :-

A college and various NGO interaction cell has been established the College encourages the faculty member to publish research paper, attend national / international conference and to carry out consultancy work. The faculty member are encourage by providing cash incentive in national / international journals. They are sponsored to attend the habitual/inter national conferences in india / abroad the cash incentives are reminded to those faculty members who are doing the consultancy work based at the amount and nature of work many Mous have been singed between the college and various NGO, industrial to curry out the research and consultancy activities.

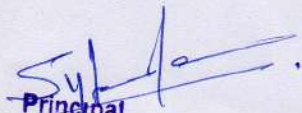

Evidence of success :-

The number of ph.d. degree holders in the college have increased considerably. The results of the above said practice has increased the numbers of papers published by the faculty members a one of the research projects have been sanctioned to our college for doing the research by the faculty members.

Problem encounters and resource required :-

The staff members are fluidly it difficult to fine the time to carry out this type activities due to their academic commitment Quarters are in proposal to encourage the staff members to stay in the campus to carry out the research activities e-learning facilities and computer aided packages are required for which contribution from the management and money collected from sponsoring college level have been used.
