

## Best Practice I

Session : 2023-2024

Title : "Importance of the Digital Education and Cyber Crime, Awareness, Issues and Challenges"

Objective : To understand and aware about the crime of cyber and social media.

Context :

Social media is just like many other parts of our lives, a necessary evil that has claimed our attention. Many student socially active on social media, but little does he know about the vulnerabilities that are not visible to him. Technology will no doubt offer us solutions to lessen this risk of cyber crime but we, as active technology users, need to suit up too and be aware and vigilant about the safe guards so "One day state level seminar was organized by Athavale College of Social Work, Chimur, Chandrapur"

The Practice :

Knowledge about cyber and social media is important because cyber criminals can use social media to target users and steal personal information. We organized one day state level seminar on importance of Digital education and cyber awareness issues and challenges on dated 3<sup>rd</sup> October, 2023.

Session I :

In the first session we have eminent resource person Mr. Amol Dhand, cyber crime expert Nagpur sector, demonstration the importance of digital education and cyber crime.

Session II :

The second session we have effective speaker Dr. Nandkishor Bhagat, Associate Professor Athavale College of Social Work, Bhandara, he explain the importance of Digital Education and major issues.

### Session III :

In the third session Dr. Chandrashekhar Malviya, BOS member RTMNU. Associate Professor Athavale College of Social Work Bhandara. He was nicely explain the importance of Digital Education and Challenges.

### Evidence of Success :

Total 52 participants enrolled and they actively participated in the seminar. All participated given is good review and feedback about this new topic of seminar. All student and faculty aware about the major issues of cyber crime, importance of digital education and challenges control the cyber crime.

### Problems Encountered and Resources Required :

Study shows that psychologically, overenthusiastic teenagers tend to spend more time at social networking sites and also hold higher level of addictive affinities cyber crimes is not a concern just for the parents and Teacher but schools and educational Institutions as whole we are all a part of this virtual word and it is very difficult to stay out of it. With the uncontrollable spared of social media, cyber criminals have discovered new channel to push for the crime social media's like Facebook, Twitter, Instagram, Snapchat, Whatsapp and others realize the pressure by cyber crimes detections mechanism along with getting legal support, knowledge from the specialist of the social law network. Through this seminar we achieved our goal on objective to understand and aware about the crime of cyber and social media. For this we required specialist speaker according to topic. We contract to the speaker of area for interest respectively.

## Best Practice II

Session : 2023-2024

Title : Every year we organized self funded seminar, workshop, conference, for sensitization & awareness of different issues in the field of social work on continuous bases.

Objective : To understand the problems of different issues in the field of social work profession through organized self funded seminar, workshop and conference.

Context :

Chimur, Chandrapur area faces many challenges in education and awareness of different issues of society, including a lack of resources, qualified teachers and infrastructure. These challenges can lead to poor learning outcomes through these seminar workshop and conference. Student scholar and faculty discovered the basics of social awareness and learn how to apply it in their everyday life with this comprehensive guide from positive action.

The Practice :

Athavale College of Social Work Chimur understand the problem of this areas student, scholar and faculty. To achience the objective of this practice our college decided to organized self funded seminar workshop and conference for sensitization, awareness of different issues in the field by social work profession. Athavale College of Social Work every year organized self funded seminar, workshop and conference. This year 2023-24 we organized one seminar on "Importance of Digital Education and Cyber Crime Awareness, Issues and Challenges" and another one is "Contribution of youth, Savitribai Fule and Rajmata Jijau in national Development".

Evidence of Success :

Being fully aware of the social issues it can help to induce a rational approach in young minds. As a result of that it will help them to avoid stereotypes.

### Problems Encountered and Resources Required :

By discussing social issues and different new topic in seminar, workshop and conference the student scholar and faculty come to know about the recent issues of society. The more their horizon of knowledge will expand. Creating awareness will also help them gain a refined perspective of life and practical approach towards the future.

If they are made aware of social issues a viable solution can come from them. Their young minds are nurtured to think better and more efficiently to come up with better ideas that will work for the betterment of society and help every one. It will also help them to avoid stereotypes and not generalize every situation, it can help to induce a rational approach in young minds. The true purpose of seminar, workshop and conference to educate people and raise awareness among every individual so that they can contribute towards a better world. As a mention the primary duty is to educate. The students about the truth so that they don't struggle when presented with the wrong information. Discussing social this goal and objective we required financial resource which our college principal and management organized. Apart from this we required eminent speakers for seminar, workshop and conference. According to topic we contact to speaker of area for interest respectively.
